for Conservation

This edition of the Thematic Week is one of the valorisation actions implemented in the European project

CHANGES - Cultural Heritage Activities: New Goals for Economy and Society (www.changes-project.eu)

supported by Joint Programming Initiative (JPI) on Cultural Heritage and Global Change

The Raymond Lemaire International Centre for Conservation is organising its annual Thematic Week on innovative built heritage models and preventive conservation in relation to sustainable development. Contributions include both advancements in the scientific research field as well as practice-oriented research.

The Thematic Week is co-organised by the lead partner of the CHANGES project, Politecnico di Milano (ABC Department), and co-chaired by the other project partners: Uppsala University (Department of Art History), TU delft (Faculty of Architecture and the Built Environment) and Foppoli Moretta e associati consulting engineers.
